## Why Choose INUKA Money Market Fund?

### First Regional Fund

Invest across multiple countries (EAC & SADC), reducing regional risks and increasing market exposure.

### Higher Returns

Targets outperforming the 364-day T-Bill yield by 50 basis points through strategic interest rate plays

### Collateralization of Units:

The units of the INUKA Money Market Fund can be used as collateral, offering investors added financial flexibility.

### Expert Management:

Benefit from Orbit Securities' deep market knowledge and experience.

### High Liquidity:

Quickly enter or exit investments with high liquidity in short-term instruments.

### Regulated Security:

Enjoy a secure investment environment regulated under stringent standards.
