## Financial Review

The Group is pleased to announce its Half Year 2021 results. The Group's Revenue increased by 5% with growth in both beer and spirits, demonstrating strong momentum and recovery from the impact of Covid-19 in the first half of 2020.

Despite the growth in revenue, operating profit remained relatively flat, with a marginal increase of 0.2%. This is primarily due to a significant increase in sales and marketing investment compared to the same period last year. Similarly, the increased sales and marketing investment coupled with higher employee bonus accruals compared to prior year have led to a decline in operating margin from 17.1% last year to 16.3% in the current year.

The Group profit after tax for the period grew by 23% compared to last year driven by prior year deferred tax adjustments.

A total of TShs 16,185 million was invested in capital expenditure during the 6 month period compared to TShs 10,885 million in the first Half Year of 2020.

The Group's reported cash generated from operations was TShs 82,776 million, of which TShs 33.484 million was utilized to pay corporate income tax. TShs 16.185 milion to pay capital expenditure. TShs 1.047 million used in financing activities and the remaining funds were retained for future activities. To preserve liquidity in the light of uncertainty caused by COVID 19, a dividend decision will be taken in the second half of 2021.

I would like to thank the Board, management and employees for their efforts and continued support as well as our customers, consumers and all stakeholders for their loyalty during this time of global pandemic. We continue to work closely with a wide range of stakeholders to leverage our scale, capabilities and resources in the fight against the COVID-19 pandemic and to do our part in the economic recovery. Our people are rising to the challenge each day, demonstrating creativity, passion and strength to keep us moving forward.
